

BELLETERRE MAILBOXES
(last update June 2020)

Our mailbox model is listed as *Williamsburg* on some websites and *Imperial* on others. Products/links may change, so it is recommended to compare pictures carefully and call the website and/or reach out to an ARC committee member if questions.

Our original mailboxes were purchased from *Addresses of Distinction (AOD)* (<https://addressesofdistinction.com/>)

AOD no longer sells our mailboxes, but as of June 2020, they have a few replacement parts left. Call them directly and tell them you're in Belleterre, Milton. The links for replacement parts on their website don't necessarily correspond to our model.

AOD does still sell the Brass Numbers, along with another website noted below under Parts.

2" Williamsburg brass numbers
